SPACES FOR A BETTER TOMORROW

About Vinscape Interiors

Vinscape Interiors is a builders, promoters and interior execution business led by proprietor Savar Chadha. The company undertakes turnkey projects and interior work for homes, offices and commercial spaces, bringing together planning, civil execution, finishes, custom interiors and final detailing.

WHAT WE DO

- **Turnkey construction**

End-to-end coordination from structural work and renovation through finishing and handover.

- **Residential interiors**

Kitchens, bedrooms, bathrooms, wardrobes, ceilings, lighting, storage and finish packages.

- **Office interiors**

Workstations, cabins, partitions, flooring, lighting and practical workplace layouts.

- **Exterior & façade work**

Façade treatments, cladding, wood-finish surfaces, glazing, railings and entrance features.

- **Civil & structural execution**

Site preparation, masonry, concrete, structural elements, boundary works and construction coordination.

- **Commercial spaces**

Execution for offices, showrooms and functional commercial environments, including fit-outs and detailing.

Vinscape Interiors

From structure to finish

Vinscape works across the full execution chain, allowing a project to move from site and structure to finished interiors without fragmenting responsibility.

01 Planning & coordination

Site assessment, execution planning, vendor coordination and sequencing.

02 Civil & structural work

Masonry, concrete, structural elements, renovation, boundary works and site execution.

03 Exterior & façade

Cladding, wood-finish surfaces, glazing, railings, entrance features and façade detailing.

04 Interior execution

Ceilings, partitions, flooring, wall treatments, built-ins, storage and finish work.

05 Kitchen & utility spaces

Modular and custom kitchen execution, utility areas, cabinetry and finish integration.

06 Lighting & detailing

Layered lighting, decorative fixtures, electrical coordination and final detailing.

RESIDENTIAL CONSTRUCTION REFERENCE

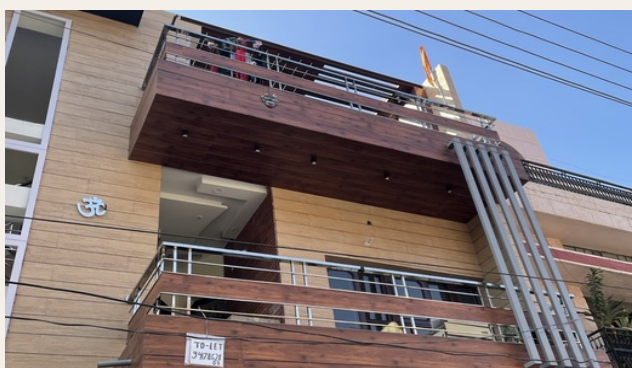

Experience includes residential construction on land parcels of approximately 100–150 gaj, with built construction planned around the available parcel and project requirements. Work references include New Chandigarh, Aerocity and Kharar.

COMMERCIAL REFERENCE

Commercial showroom execution capability includes work in Wave Estate, Mohali.

Exterior façades

A selection of residential and commercial-facing exterior work, showing façade composition, cladding, glazing, entrance treatment, balconies and architectural detailing.

FACADE EXECUTION

Wood-look finishes, glass, metalwork, railings, entrance portals, feature screens and façade lighting are coordinated as part of the exterior package.

Civil & structural execution

Site photographs from construction work demonstrate the execution side of Vinscape's capability — from boundary and foundation work to masonry, slabs, staircases and multi-storey structures.

RESIDENTIAL CONSTRUCTION

Reference scope: approximately 25% construction on a land parcel, with experience across 100–150 gaj plots and multiple residential houses in New Chandigarh, Aerocity and Kharar.

EXECUTION FOCUS Structure • masonry • concrete • site coordination • boundary works

Office interiors

Functional workplace environments combining efficient planning with clean finishes, daylight, storage, partitions and meeting areas.

WORKPLACE CAPABILITY

● Planning

Workstations, circulation, cabins and meeting areas.

● Partitions

Glass and solid partitions with practical zoning.

● Finishes

Flooring, wall treatments, ceilings and lighting.

● Execution

VINSCAPE INTERIORS

Coordination from site preparation to final detailing.

Workplace details

Closer views of circulation, partitions, cabins and work areas show the detailing layer behind the larger workplace layouts.

DETAILING MATTERS

Vinscape's interior execution covers the elements that make a workplace usable every day: circulation, privacy, storage, lighting, workstation planning and durable finishes.

Bedrooms & private spaces

Residential interiors are approached as complete environments — combining furniture, wall treatments, lighting, colour, storage and finishing details.

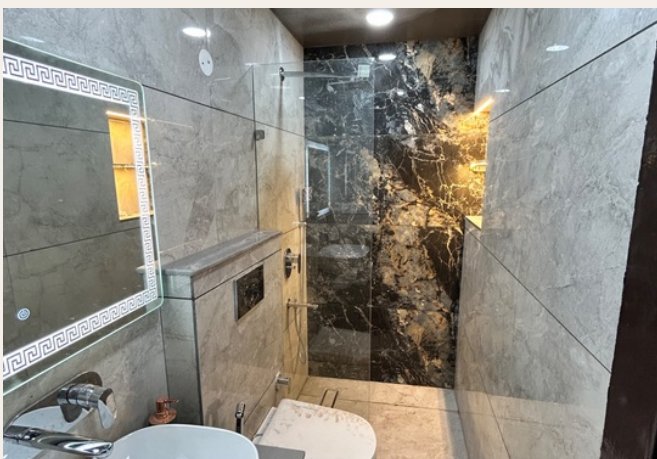

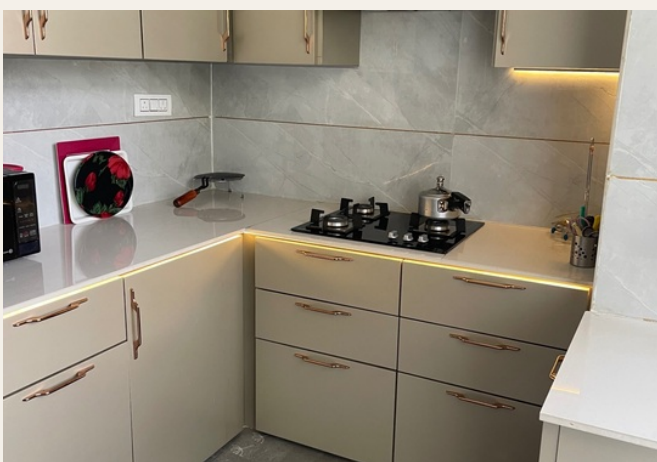

BEDROOM CAPABILITIES

- **Wall treatments**
Feature walls, wallpaper and decorative surfaces.
- **Furniture & storage**
Beds, side units, wardrobes and integrated storage.
- **Lighting**
Ceiling, cove and decorative lighting coordinated with the room.
- **Finishing**
Curtains, colours, hardware and final styling details.

Kitchens & bathrooms

Compact or full-size spaces are executed around practical circulation, storage, lighting, material durability and clean detailing.

SCOPE

Kitchen cabinetry • counters • utility areas • sanitary finishes • wall and floor finishes • lighting • hardware • final installation.

Lighting, ceilings & finishing

The final layer of a project is where materials, lighting and detailing come together. Vinscape executes these elements as part of the wider interior package.

FINISHING PACKAGE

False ceilings, cove lighting, decorative fixtures, wall finishes, flooring, feature surfaces, glazing, hardware and final fit-and-finish coordination.

Selected project experience

The portfolio combines residential, commercial and construction references. The images shown in this document are real project/site photographs supplied for Vinscape Interiors' portfolio.

PROJECT CONTEXT

Wave Estate, Mohali

REFERENCE

Construction & civil

Structural and site execution including foundations, masonry, slabs, staircases and boundary works.

PROJECT CONTEXT

Kharar and residential construction references

How Vinscape approaches a project

A project is managed as a connected sequence — from understanding the site and scope to coordinating execution and closing the final details.

01 Understand

Brief, site conditions, requirements, budget direction and scope.

02 Plan

Execution sequence, materials, vendors, drawings / detailing and site coordination.

03 Build

Civil, structural, exterior and interior works executed in sequence.

04 Finish

Surfaces, cabinetry, lighting, hardware and final installation.

05 Handover

Snag resolution, finishing checks and completion coordination.

THE PROMISE

One team. One execution chain. One finished space.
